

MIT DESAI

Full Stack Developer | MERN Stack Developer

Bengaluru, India | mitdesai9118@gmail.com | +91 99099-13283 | linkedin.com/in/mitdesai9118 | github.com/MitDesai9118

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js). Recently completed internship experience in developing responsive frontend interfaces, backend APIs, authentication systems, and database integration. Comfortable working with modern JavaScript, REST APIs, Git/GitHub, and AI-assisted development tools like ChatGPT and Claude. Also worked on AI-integrated projects using TensorFlow and NLP. Passionate about learning new technologies and building practical real-world applications.

TECHNICAL SKILLS

Frontend:	React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design
Backend:	Node.js, Express.js, REST APIs, JWT Authentication, Middleware
Databases:	MongoDB, MySQL, CRUD Operations, Database Design
AI & Tools:	TensorFlow, NLP, Hugging Face, ChatGPT, Claude AI
Developer Tools:	Git, GitHub, VS Code, Postman
Additional Languages:	Python, Java, PHP, R

EXPERIENCE

MERN Stack Developer Intern

Jun 2025 – Jul 2025

Squirracode Technologies, Surat, Gujarat

- Worked on MERN stack applications using React.js, Node.js, Express.js, and MongoDB.
- Developed backend APIs and integrated them with frontend components.
- Implemented JWT-based authentication and user login functionality.
- Built responsive UI components and improved frontend usability.
- Used Git and GitHub for version control and project collaboration.
- Used AI tools like ChatGPT and Claude to assist with debugging and development tasks.

Junior Accountant

Jan 2021 – Jan 2024

JK & Co. Surat, Gujarat

- Managed reports, documentation, and day-to-day data handling tasks.
- Developed communication, teamwork, and organizational skills through client coordination and office operations.

PROJECTS

PillDetectAI – AI-Powered Healthcare Application

Tech Stack: MERN Stack, TensorFlow, NLP

- Developed a healthcare application for pill detection and medicine information retrieval.
- Integrated TensorFlow MobileNetV2 model for image-based pill recognition.
- Built authentication system, REST APIs, and MongoDB database integration.
- Designed responsive frontend using React.js.

Yoga Club Management System

Tech Stack: PHP, MySQL

- Developed a web-based management system with admin, trainer, and member modules.
- Added scheduling, dashboard, and payment management features.

Fitness Tracker Application

Tech Stack: Python, MySQL

- Built a fitness tracking application with login authentication and activity monitoring.
- Implemented modular database operations and user progress tracking.

ACHIEVEMENTS

- Indian Patent Holder – AI-Based Predictive E-Waste Collection Scheduling
- Published 2 Research Papers related to AI and Deep Learning
- Completed 21 Industry Certifications in AI, Cloud, Databases, and Development

CERTIFICATIONS

- Python for Data Science & AI – IBM
- Cloud Computing Essentials – Microsoft
- AI For Everyone – DeepLearning.AI
- Relational Database Administration – IBM
- Designing UI/UX – IBM
- Machine Learning & NLP Basics

EDUCATION

M.Sc. Computer Science & IT	<i>2024 – 2026</i>
Jain (Deemed-to-be University), Bangalore	
BCA	<i>2021 – 2024</i>
Veer Narmad South Gujarat University, Surat
